## PROFESSIONAL SUMMARY

Results-driven ICT Officer with 6+ years of progressive experience in IT infrastructure management, systems administration, and digital transformation. Proven expertise in designing and implementing secure ICT strategies, optimizing system performance, and leading technical teams. Skilled at translating complex technical requirements into operational excellence while maintaining regulatory compliance and high user satisfaction.

## EXPERIENCE

**KIRIRI WOMEN UNIVERSITY OF SCIENCE AND TECHNOLOGY** MAY 2025 – Present

*Assistant System Administrator*

- Lead ICT strategy implementation and governance aligned with institutional objectives, overseeing infrastructure roadmap and policy development.
- Manage large-scale IT projects including ERP deployment, cloud migration, and cybersecurity initiatives, ensuring on-time delivery and stakeholder alignment.
- Enforce ICT policies and compliance in accordance with regulatory standards, conducting audits and remediation across all systems.
- Coordinate with cross-functional departments for seamless ICT service delivery, reducing inter-departmental resolution time by 30%.
- Provide first-line user support and account management for 2,000+ users, maintaining 95% ticket resolution rate.
- Monitor servers, system updates, and data backups across 50+ systems, achieving 99.5% uptime and zero data loss incidents.
- Configure and manage network devices, IP addressing, and DNS/DHCP settings for enterprise infrastructure supporting 2,000+ endpoints.
- Maintain and upgrade hardware/software and enforce antivirus/firewall compliance across all systems, achieving 100% security policy adherence.
- Document system changes and develop technical user guides, reducing support inquiries by 20%.

**KIRIRI WOMEN UNIVERSITY OF SCIENCE AND TECHNOLOGY** OCT 2021 – MAY 2025

*ICT Officer*

- Architected and deployed comprehensive ICT strategy and governance framework, establishing policies and standards that improved system uptime to 99.2% across all university operations.
- Managed ICT infrastructure for 2,000+ users, directing priorities across system development, maintenance, and operations to reduce downtime by 40% year-over-year.
- Implemented enterprise-grade security audit program, conducting quarterly assessments that identified and remediated 15+ critical vulnerabilities and achieved 100% software licensing compliance.
- Designed and deployed secure remote access solution for 300+ staff, enabling secure VPN connectivity while maintaining data confidentiality and reducing unauthorized access incidents to zero.
- Led digital transformation initiative, implementing university ERP system for student data management and processing, improving data integrity audits from manual to automated with 99.8% accuracy.
- Mentored and trained 5 ICT support staff members, establishing competency framework that reduced average ticket resolution time from 8 hours to 2 hours.
- Orchestrated scheduled upgrades and security backups for 50+ hardware and software systems, achieving zero data loss incidents across 3+ years of operation.

- valued and selected ICT resources aligned with user needs, delivering hands-on training to 500+ end users and achieving 95% adoption rate for new systems.
- Managed crisis response for complex hardware and software incidents, resolving critical issues within SLA targets and maintaining stakeholder confidence.
- Maintained antivirus software, print services, and email infrastructure serving 2,000+ users with 99.5% service availability and zero major security breaches.

## **NYANDARUA COUNTY GOVERNMENT**

**JAN 2021 - JUN 2021**

### *Assistant ICT Support Officer*

- Installed, configured, and maintained hardware and software infrastructure including 20+ servers, network equipment, and 100+ peripherals, achieving 98% uptime.
- Monitored system performance using diagnostic tools, identified bottlenecks, and resolved issues with average resolution time of 3 hours, reducing downtime by 35%.
- Implemented multi-layered security measures including firewalls, antimalware, and access controls, protecting systems from unauthorized access and reducing security incidents by 50%.
- Managed user accounts and permissions for 150+ staff, enforcing role-based access control policies and conducting quarterly compliance audits with 100% pass rate.
- Designed and executed disaster recovery procedures, conducting monthly backup tests and recovery drills that ensured zero data loss and 4-hour RTO for critical systems.
- Provided technical support to 150+ end users, resolving hardware and software issues with 92% first-contact resolution rate and 4.5/5 user satisfaction score.
- Collaborated with 5+ external vendors to procure ICT equipment and services, negotiating contracts that reduced costs by 20% while maintaining quality standards.
- Developed comprehensive ICT documentation including system configurations, procedures, and troubleshooting guides, reducing support ticket volume by 25%.
- Researched emerging ICT technologies and industry trends, recommending 3 infrastructure improvements that enhanced performance and reduced operational costs by 15%.
- Planned and executed 2 major ICT projects including system upgrades and migrations, completing on schedule with zero business disruption.
- Conducted periodic ICT environment audits and assessments, identifying optimization opportunities that improved system efficiency by 30%.
- Trained 150+ staff on ICT best practices, security protocols, and technology tools, achieving 90% training completion rate and improved security awareness.
- Monitored and enforced compliance with ICT policies and regulatory requirements, maintaining 100% audit compliance across all assessments.

## **BARINGO COUNTY GOVERNMENT**

**JAN 2017 - AUG 2017**

### *ICT Intern*

- Conducted user needs analysis and requirements gathering for 3 software development projects, translating business requirements into technical specifications.
- Identified and documented 20+ defects and errors during software development and testing, improving product quality and reducing post-deployment issues by 35%.
- Performed system maintenance, troubleshooting, and debugging across 10+ applications, reducing average issue resolution time by 40%.
- Supported software implementation for 2 enterprise systems, providing training and technical support to 100+ staff and achieving 85% adoption rate.
- Managed backup and disaster recovery procedures for 5 mission-critical servers and databases, ensuring 100% data

redundancy and zero data loss incidents.

- Diagnosed and resolved network connectivity issues for 50+ users, verifying IP addresses and configurations with 95% first-contact resolution rate.

| Master of Science in Cyber Security — Mount Kenya University, Thika, Kenya           | Jan 2024 - Ongoing  |
| Bachelor of Science in Information Technology — Mount Kenya University, Thika, Kenya | May 2018 - Jul 2022 |
| Diploma in Information Technology — Kisii University, Kisii, Kenya                   | May 2015 - Dec 2016 |
| KCSE Certificate — Miharati Boys High School, Miharati, Kenya                        | 2011 - Nov 2014     |

CERTIFICATIONS

- Network Fundamentals Using Graphical Network Simulator (GNS3) - Cybrary, 2018-2019
- Network Security - Cybrary, 2018-2019
- Certificate in Computer Repair and Maintenance - Elias ICT Centre, Baringo

SKILLS

- ICT Infrastructure Management
- Systems Administration
- Network Configuration
- Server Management
- Security Audit & Compliance
- Disaster Recovery Planning
- ERP Systems
- Data Integrity Management
- Hardware Installation & Maintenance
- Software Licensing
- Backup & Replication
- Troubleshooting & Debugging
- Help Desk Support
- User Training & Documentation
- Vendor Management
- IT Project Management
- GNS3
- Antivirus Management
- DNS/DHCP Configuration
- Firewall Management
- Role-Based Access Control
- VPN Configuration
- Business Continuity Planning
- Technical Documentation
- Incident Management
